

Product Catalogue

Electronic weighing systems, weighbridges, platform scales, table-top scales, and precision instruments.

WINTEX

Cup Ball Type
DIGITAL LOAD CELL

Model : WP 14 / WS 14

Digital loadcells are pre-calibrated with standard weights and are capable of transmitting direct weight output in digital form to weight indicators.

Digital Loadcell Features

- Pre calibrated. No need of calibration or corner adjustments in field
- Linear output through out full range
- Highly temperature compensated
- Signal integrity against external electrical noise
- Better accuracy, Very simple & Easy installation procedure
- Long distance signal communication between weighbridge indicator and loadcell (Up to 1200 m)
- Advanced in built Surge/lightning protection exceeding IEC 61000-4-5 standard
- Tamper proof for weight integrity
- Easy field replaceability, as factory calibrated

Salient Features

- Galvanneal body prevents rusting of body for long time
- Specifically designed cables suitable for harsh environment and better noise immunity
- 16 meter SS/Orange standard cable length
- One year warranty against any manufacturing defect
- Strong technical support for field or design related issues

WINTEX is a reputed brand in the Indian weighing industry since

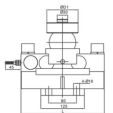

WINTEX

Technology Support from Japan

Technical Specifications

SPECIFICATION :

- Standard capacities (E_{max}) : 42.5 Ton (Digital)
- Sensitivity (Rotated output) R.O. : Digital
- Rated Excitation : 15 VAC OR DC
- Max. Excitation : 25 VAC OR DC
- Non Linearity : <±0.025% OF FS
- Hysteresis : <±0.020% FS
- Non Repeatability : <±0.010% FS
- Creep (30 min) : >±0.020% FS
- Operation Temperature : -20 DEGC TO + 70 DEGC
- Safe Overload : 150%
- Ultimate overload : 200%
- Static Load Discrimination : 500 : 1
- Protection Class : IP 68 / IP 67
- Combined Error : <±0.025% OF FS
- A/D module resolution : 1000000 internal counts

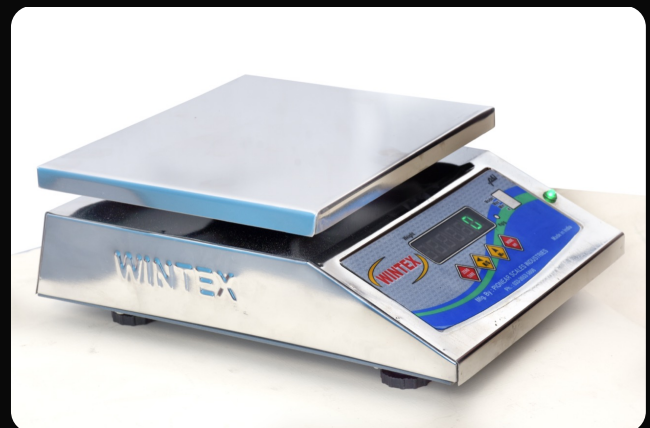

Rated Load	ST	10, 20, 30 T	42.5 T
D1	68	85-88	88
D2	50.8	76.2	76.2
H	168.8	224.7	230.7
L	224	240	240

Connections

Excitation + : Red Signal + : Blue
Excitation - : Black Signal - : White

SMPS

Auto zero tracking

Micro processor controller

Bright LED display

Overload protection

Auto calibration

Tare mode

High speed weighing

Government-approved weighing systems | Precision You Can Trust!

Scale range for every counter and floor.

Modernized from the original Wintex catalogue product range with updated product imagery and cleaner specifications.

Platform Scale

Industrial floor weighing

50 kg to 5 ton platform sizes

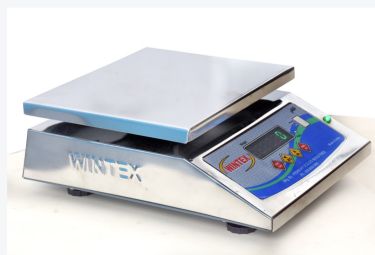

Table Top Scale

Retail and counter operations

3 kg to 60 kg options

Pole Display Scale

Fast moving counters

6 kg to 100 kg options

Micro Mini Scale

Compact precision work

Compact capacity ranges for precise weighing

Jewellery Scale

High sensitivity measurement

Fine weighing ranges for jewellery and valuables

Pioneer Scales Industries

Narayan Commercial Complex, Gango Pal, Balitikuri Brahmin Para, Howrah - 711113, W.B.
India
wintexscales74@gmail.com | +91 33 2653 5806 | +91 87777 27028

Precision You Can Trust!

Fully electronic weighbridge systems.

A rugged vehicle-weighing system for factories, dispatch yards, mining sites, agricultural procurement, and logistics hubs.

Capacity	30t, 40t, 50t, 60t, 80t, 100t and custom site configurations
Platform size	Designed as per customer demand and site requirements
Indicator	Digital indicator and intelligent terminal options
Software	Weighlink-style database reporting, vehicle, supplier, material and transaction records

Precision You Can Trust!

Engineered around accuracy, reliability, and customer trust.

Pioneer Scales Industries manufactures Wintex electronic weighing systems using hi-tech electronic components, micro-processor based circuits, strict quality checks, and practical after-sales service.

Quality control

Each system is checked through disciplined production and testing processes aligned with accepted weighing standards.

R&D led products

A dedicated R&D approach helps develop rugged mechanical structures and improved electronic systems.

Service network

Factory and branch support across Kolkata, Jaipur, Mumbai, Delhi, Siliguri, Tata Nagar, Bhutan and Bangladesh.

Customer fit

Products are selected and configured around customer capacity, workflow, accuracy and site needs.
